

## FERTILITY LAB

### BASIC FERTILITY

Incubators

Centrifuge

Microscope

Tube Warmer

Sperm Counting Chamber

Pipettors and Tips

### IVF LAB SET-UP

IVF Workstation

Anti-Vibration Table

Bench Top Incubator

CO<sub>2</sub> Incubator

Micromanipulator

Oven

Water Bath / Dry Bath

Suction Pump

### DIAGNOSTIC LAB

#### Rapid Fluorescence Immuno Assay / Point-of-Care Testing (POCT)

- Precise & accurate results in 3-15 minutes
- Built-in thermal printer and inner temperature control
- Stores up to 30,000 results

- |               |            |
|---------------|------------|
| -FSH          | -T3        |
| -LH           | -T4        |
| -β-hCG        | -TSH       |
| -Progesterone | -Vitamin D |

#### Enzyme Linked Immuno Assay (ELISA) / Microplate Reader

-exceptionally high sensitivity allowing significant detection limits with low reagent concentrations

- AMH (Anti-Mullerian Hormone)
- Inhibins
- Activins
- Follistatins

## LAB WARES

Conical Tube

Testtube with cap

Serological Pipette

Petri Dish

Cryogenic Vial

Culture Flask

Transfer Pipette

Pipette Tips

## DISPOSABLE SLIDES

Pre-Stained Morphology Slides

Disposable Sperm Counting Chambers

## RAPID TEST

One-Step FSH  
Urine Test

One-Step LH  
Ovulation Test

One-Step HCG  
Urine/Serum Test

Digital Pregnancy  
Test

Sperm Concentration

Urinalysis Strip

Infectious Screening

## SPECIALTY LABELS

Cryogenic Labels

IVF Straw Labels

Tamper-Evident Labels

Self-Laminating Labels

Autoclave Labels

Chemical-Resistant Labels

Syringe Labels

Cryo/Chem-Resistant  
Markers
